DETAILED ACTION

1. This action is responsive to the communication filed on January 16, 2006. Claims 1-160 are pending. At this time, claims 1-160 are rejected.

Double Patenting

2. Claim 1-160 are rejected on the ground of nonstatutory double patenting over claims 1-22 of U. S. Patent No. 7,103,772 B2 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows:

Claims 1-160 recites the claimed language that is similar to those of claims 1-108 of U. S. Patent No. 7,103,772 B2.

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
